Section 1 – Introduction

This directory provides a list of AlphaCare’s network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage.

You will have to choose one of our network providers who are listed in this directory to be your Primary Care Provider (PCP). The term “PCP” will be used throughout this directory. Generally, you must get your health care coverage from your PCP. Your PCP is the doctor or other provider you see first for most health problems. He or she makes sure you get the care you need to keep you healthy. He or she also may talk with other doctors and health care providers about your care and refer you to them. You may self-refer to an obstetrical and gynecological (OB-GYN) specialist for a routine Pap smear, pelvic exam and breast exam annually.

The “network providers” listed in this directory have agreed to provide you with your health care, vision and dental coverage. You may go to any of our network providers listed in this directory; however, some services may require a referral. If you have been going to one network provider, you are not required to continue going to that same provider. In some cases, you may get covered services from non-network providers.

If a non-network provider sends a bill directly to you, you should not pay the bill but submit it to AlphaCare for processing and determination of any payment responsibility you may have.

Emergency care can always be obtained in or out of the service area from the nearest available provider offering emergency services. When in the service area you must use plan providers for urgent care. When out of the service area urgent care may be obtained from the nearest available provider. In addition, when out of the service area you can obtain dialysis treatment from any qualified dialysis provider.

You must use plan providers except in emergency or urgent care situations or for out-of-area renal dialysis. If you obtain routine care from out-of-network providers neither Medicare nor AlphaCare will be responsible for the costs
