Turning vision into action. It’s what we do every day at Magellan. Through our efforts in the communities in which we live and work, we touch the lives of countless people every year. We don’t just provide expert health services; our employees participate in fundraising events such as community walks; they serve on non-profit boards; they provide support after a natural or man-made disaster, such as the water crisis in Flint, Mich. The words “Magellan Cares” are not just words on a page, but a mantra by which we, as a company, try to incorporate into our lives daily.

In recognition of all that our employees do and all that Magellan does collectively, we created the Magellan Cares Foundation in 2015. Through this nonprofit, charitable organization, our mission is to improve the health and well-being of the lives and communities we serve. We are excited to extend grants to organizations that fit within our guidelines this year. It is just one more way we can touch the communities where we work and live.

As you take a moment to read these web pages, I hope you will see the energy and empathy that our employees display, day in and day out. It is what makes Magellan unique and allows us to turn vision into action.

Best,

Barry M. Smith
Chairman & CEO, Magellan Health, Inc.
Chairman, Board of Directors, Magellan Cares Foundation
